

# Fever

## Azure Ray

Fever i know you've come to take my love  
Go away  
Fever i know your face just like a dove  
Fly away  
Fever turn the lights out  
Take a different road  
Let us be  
Fever i know you've come to take my love  
Go away  
Fever i know in god i shouldn't trust  
He's so far away  
Fever turn the lights out  
Take a different road  
Let us be  
Fever take a different route  
Travel a different road  
Let us be  
Fever i know you've come to take my love  
Go away fly away go away
