

Where We Belong

Kate Alexa

I wake up every morning
I just wanna hide
Wanna get away and find my other side
Another place I just can't describe
I call the girls out
they all feel the same
I know a place where we can hide away
I gotta get away before I go insane
We're running away from good vibrations
We're running away to sweet sensations
We're running away to where we belong, yeah
We're searching our way through deep blue oceans
We're making our way with our magic motions
We're gonna get where we all belong, where we all belong,
So c'mon let's move away from the shore
Let's drift away, above the ocean floor
Can't get enough, want it more and more
Don't wanna think about how this has to end
Don't wanna think about how we all pretend, I don't care 'cause I'm having fun with my friends,
yeah
We're running away from good vibrations
We're running away to sweet sensations
We're running away to where we belong
We're searching our way through deep blue oceans
We're making our way with our magic motions
We're gonna be where we all belong, where we all belong
And anytime we feel this way, our secret place will save our day,
Where we can always feel free, Oh!
We're running away from good vibrations
We're running away to sweet sensations
We're running away to where we belong
We're searching our way through deep blue oceans
We're making our way with our magic motions
We're gonna be where we all belong, where we all belong
(repeat last verse)
