

# Did I

## Kehlani

You got a lot of things to say  
You got a lot of things on your plate  
You got a lot on me know a lot of things that I just can not say is quite on my wave  
You bitches riding on all my waves  
But you bitches tired and underpaid  
And shawty got zero percent on her publishing cause she don't write the shit she say  
Cause I'm up right now been up  
I'll come down when I'm not so high  
And life's not so loud  
Cause I been wet  
Tsunami the mob, that's a real set  
Tsunami the sound made it real best  
Tsunami rolled in that's the realest, realest  
You can tell me you ain't mean it  
You can tell me it's deceiving  
That you said it for no reason  
But you seeming like you tryna get out Did I? Did I?  
Hurt your feelings when I stunted like that  
Hurt your feelings when I stunted like that  
Did I? Did I?  
Hurt your feelings when I hustled like that  
Hurt your feelings when I hustled like that  
Did I? Did I?  
Waste my time, tryna keep it all running  
Waste my time, tryna keep it all running  
Did I? Did I?  
Hurt your feelings when I hustled like that  
Hurt your feelings when I stunted like that  
Did I? Did I?  
You used to living through all the screens  
You used to wearing designer things  
You don't know nothing 'bout working your way from the bottom and earning every ring  
You think we competing for rings  
You think you playing in my league  
But you couldn't catch up if I took a break and vacationed for weeks on top of weeks Cause I'm  
up right now been up  
I'll come down when I'm not so high  
And life's not so loud  
Cause I been hard, I write every word and they been bars  
Take every title, they been ours  
Pull up lowkey cause we been stars, been stars You can tell me you ain't mean it  
You can tell me it's deceiving

That you said it for no reason  
But you seeming like you tryna get out  
Did I? Did I?  
Hurt your feelings when I stunted like that  
Hurt your feelings when I stunted like that  
Did I? Did I?  
Hurt your feelings when I hustled like that  
Hurt your feelings when I hustled like that  
Did I? Did I?  
Waste my time, tryna keep it all running  
Waste my time, tryna keep it all running  
Did I? Did I?  
Hurt your feelings when I hustled like that  
Hurt your feelings when I stunted like that  
Did I? Did I? You can't fake it  
You can't fake it  
You can't fake it  
What is real is recognizing  
We don't recognize you  
You can't take  
You can't take  
You can't take  
It's too real for you to handle  
So I got one more question  
Did I? Hurt your feelings when I stunted like that  
Hurt your feelings when I stunted like that  
Did I? Did I? (yeah)  
Hurt your feelings when I hustled like that  
Hurt your feelings when I hustled like that  
Did I? Did I? (Did I hurt your feelings?)  
Waste my time, tryna keep it all running  
Waste my time, tryna keep it all running (Did I wast my time, did I wast my time?)  
Did I? Did I?  
Hurt your feelings when I hustled like that  
Hurt your feelings when I stunted like that  
Did I? Did I? Did I miss out on you?
