

# Underneath the Sky (feat. Christon Rigby)

## Dash Berlin

Now the smoke is gone  
And the storm has passed  
And you finally caught your breath  
Know it's over now  
And you're safe with me  
I will guide you through the mess  
When it all when down  
Like a tidal wave  
And it swept you off your feet  
There's a time to heal  
What's been so unreal  
So believe me when I'll sing  
Close your eyes  
Stop dreaming of foregone days  
We can never turn back time  
Regretting the words we didn't say  
Take my hand  
Don't let it just pass us by  
Now in our promised land  
Here tonight, underneath the sky  
Now the smoke is gone  
And the storm has passed  
And you finally caught your breath  
Know it's over now  
And you're safe with me  
I will guide you through the mess  
When it all when down  
Like a tidal wave  
And it swept you off your feet  
There's a time to heal  
What's been so unreal  
So believe me when I'll sing  
Close your eyes  
Stop dreaming of foregone days  
We can never turn back time  
Regretting the words we didn't say  
Take my hand

Don't let it just pass us by  
Now in our promised land  
Here tonight  
Underneath the sky  
Underneath the sky  
Underneath the sky
