

# Spit In Your Face

## Outbreak

you do it to yourself, and you're the one to blame  
so go on ahead with your slutty game  
beg for attention but i'm not buying  
all i can do is laugh when i see you crying  
and when you've hit the bottom and need some help up  
i won't give a fuck, you'll be shit out of luck  
'cause the world is overcrowded with heartless fucks  
there's no one to trust and everyone sucks  
i'll spit in your face and call it a day  
i feel so much better without you in my way
