

1-Flight (feat. Lawrence W.)

Andre Nickatina

I'm always looking for a winna
Your rolling with a world wide sinner
Jump out the car and let the perm hit her
The city is a drug
My Rolls Royce is thumping like the club
So I ain't gonna front
Here have a blunt
Sittin' outa here deli square having lunch
The Hennessy we drinking got us both getting drunk
And then I start talking about my ranes
And how moneys made
Baby even when it rains, its not a game.
I'm bright like the night next door light
If it's the first class fight then it must be right, yo
And I don't have to time to be no Sponcer
Man and if we do it right then we might have time to hit up all the concerts
Might hit the mall
way harder then a boxer
Do something nice
Then he asking me to knock her
I could never jock her
Gotta put the game on display
She bit her lip and didn't walked away
My name is Dre!
#2Baby make that flight
For real, We could do it all tonight
Now give me one chance to make it right
Cause' I could get the clients
And you can get the science
The way I'm talking baby, can make somebody else buy it
They really can't deny it
The city is the maker for the money
Blaze no, dirty talk to me
My number is 555-5555
It's kind of hard to memorize
I'm so live
I do a U-Turn all on Vaness
Baby thought I wouldn't do it cause' the car is so fresh
I jump out the car
Own her like a shooting start
And even though I wearing Jordan man I still at the par
Man its the city life connect with the
pretty life
When people treat their car and money like a pretty wife
You take her round town Mabey take
her downtown
Anywhere the moneys quick and it never slows down.
