

# Particular Taste

## Shawn Mendes

[Verse 1]

She don't listen to a thing, plus it feels right  
Only dances when it's Kanye  
She could take you one-on-one if she feels like  
You'll be begging her for mercy, mercy[Pre-Chorus]  
Ooh, she'll take your name and number  
Then she'll hit erase and walk away  
But ooh, is she so specific when she's at my place  
At my place[Chorus]  
She's got particular taste, yeah  
She's so obsessed with the chase  
Yeah, she don't waste time on conversations, no  
She just goes right for the face, yeah  
She's so particular

[Verse 2]

Never pickin' up her phone 'less it rings twice  
Only answers with a question, "Mhm..?"  
If I try to play it cool, it never goes right  
Got me drownin', drownin', uh[Pre-Chorus]  
Ooh, she'll take your name and number  
Then she'll hit erase and walk away  
But ohhh, is she so specific when she's at my place  
At my place[Chorus]  
She's got particular taste, yeah  
She's so obsessed with the chase  
Yeah, she don't waste time on conversations  
No, she just goes right for the face (she just goes, she)  
She's so particular

[Post-Chorus]

I'm so obsessed with her  
Yeah, she's so particular  
I'm so obsessed with her  
Yeah, she's so particular[Bridge]  
She's the best at getcha' thinkin' that you go there  
Knows exactly what she wants, uhh  
Now she's runnin' all her fingers right through my hair  
And it means that[Chorus]  
She's got particular taste  
She's got particular taste  
She's so obsessed with the chase  
Yeah, she don't waste time on conversations  
No, she just goes right for the face (she just goes, she)

She's so particular[Outro]  
I'm so obsessed with her  
Yeah, she's so particular (she just goes, she)  
I'm so obsessed with her (she's so particular, she just goes)  
Yeah, she's got particular taste
