

# Thinking About You (feat. Leo Kalyan)

TCTS

Baby, I've let you get the best of me  
And lately, you have made a mess of me  
I suspect you already know  
Waiting for you time goes slow  
I suspect you already know Feel you rushing on my veins and my body  
Now you're going to my head  
There ain't nothing that explains it entirely  
Got me hanging by a thread  
Thinking about you, Thinking about you  
Thinking about you, Thinking about you Thinking about you, Thinking about you Thinking  
about you, Thinking about you Baby, this is a thing I can't sustain  
Baby, you hit me like a hurricane Feel you rushing on my veins and my body  
Now you're going to my head  
There ain't nothing that explains it entirely  
Got me hanging by a thread Thinking about you, Thinking about you  
Thinking about you, Thinking about you Thinking about you, Thinking about you Thinking  
about you, Thinking about you  
Feel you rushing on my veins and my body  
Now you're going to my head  
There ain't nothing that explains it entirely  
Got me hanging by a thread Thinking about you, Thinking about you  
Thinking about you, Thinking about you Thinking about you, Thinking about you Thinking  
about you, Thinking about you
