

# Nobody's Fool

## Shakey Graves

Never Alone  
Always some new chaperone  
Seems you're never alone Yeah you climb to the top of the pile  
Enjoy the view  
Stay for a while  
Hard to get by on your own  
When you're never alone Life of regret  
(Oh) Each drink and each cigarette  
Leads to life of regret So go out  
Make your amends  
Plant you a garden and  
Get you some friends  
Troubles still just what you get  
In this life of regret (Ooh) Chosen by God  
Well whether you like it or not  
You've been chosen by God So stand there  
Curse at the clouds  
You know the answer  
So scream it out loud Whether asleep on the job  
Heaven oh useless oh slob Oh never forget what you're not  
You've been chosen by god (Ooh) But you're nobody's fool  
That's the one thing they don't teach in school  
You ain't nobody's fool  
Don't worry you'll turn out fine  
Better off dead than waiting in line Stick to that golden ol' rule  
You ain't nobody's fool (Ooh)
