

# Come Together

## The Internet

And I want those eyes  
Only in one side  
Only in the wide  
Girl, I'm in the rush I can't be sure  
Ah, anymore  
Today or tomorrow  
What we've come to?  
What we've come to?  
They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together I forget my pride  
Strolling in your blush  
Wanna get so high  
Wanna live my life I can't be sure  
Ah, anymore  
Today or tomorrow  
What we've come to?  
What we've come to? They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together (They gon' get us to come together)  
(They gon' get us to come together)
