

Young in Love (feat. Karmin)

Borgeous

Find out my man, he's got these plans
He wants to win the whole world over
He's got the smile to launch the attack
So how could I live without him? Let us keep strong belief
Let us be too naive
Oh honey, I know we got lots to learn
But this is how we'll make it work I want to be young in love
Hotter than a mid-July
I want to be dumb enough
To keep the crazy alive
Even if we must grow up
Baby, put your hand in mine
I want to be young in love
Nobody loves me like
Nobody loves me like
Nobody loves me like
Nobody loves me like my baby, he's got his ways
He wants to keep everybody laughing
Darkest of clouds turn into sun rays
So what would I do without him? Let the year pass us by
Let the flame turn to fire
Oh honey, I know we got lots to learn
Come on, bring the heat, let it burn I want to be young in love
Hotter than a mid-July
I want to be dumb enough
To keep the crazy alive
Even if we must grow up
Baby, put your hand in mine
I want to be young in love
Nobody loves me like
Nobody loves me like
Nobody loves me like
Nobody loves me like Do what you do
Ain't nobody love me like you
Way you do what you do
Ain't nobody love me like you
Way you do what you do
Ain't nobody love me like you
Way you do what you do
Ain't nobody love me, body love me like you Do what you do
(Way you do what you do)
Ain't nobody love me like you

(Ain't nobody like you)
Way you do what you do
Ain't nobody love me like you
Way you do what you do
Ain't nobody love me like you
Way you do what you do
Ain't nobody love me, body love me like you I want to be young in love
Hotter than a mid-July
I want to be dumb enough
To keep the crazy alive
Even if we must grow up
Baby, put your hand in mine
I want to be young in love Nobody loves me like
Nobody loves me like
Nobody loves me like
Nobody loves me like
