

# Heart of a Warrior (feat. Teddy Sky)

## Dizzee Rascal

I will fight til I take my last breath  
I got the heart of a warrior  
The heart of a warrior  
I've been down, I've been out and I bled  
I got the heart of a warrior  
The heart of a warrior  
I'll never back down Born fearless, leavin when it's delirious  
Superstar and super serious  
Runnin the game like I was born gearless  
Deeper guy, I got the beat to live em earless  
Still I know that they still hear us  
Only rap, we make an appearance  
So I shout, shout, let it out  
I remain tearless cuz I'm fearless  
Doing it for the man dem in the hoodies and the new eras  
Young ragamuffin, can't tell me nothing  
Miss me with that huff and puffing  
You ain't ready to buck and get stuck in  
You're just doing a lot of chuckin  
I'm just doing a lot of [?]  
Are you sick or something?  
Are you thick or something?  
You should think of ducking  
Hit you with that nunchukka  
I Bruce Lee your fly kick  
Jump up and Tom pop and I've got something  
Nigga they comin hard for they food  
Don't wanna see me switch and lose my cool  
'Cause I be up with that fool, hard but you have to smooth, I be actin a fool  
I be actin a fool... I be actin a fool... I be actin a fool... I be actin a fool... I will fight til I take my  
last breath  
I got the heart of a warrior  
The heart of a warrior  
I've been down, I've been out and I bled  
I got the heart of a warrior The heart of a warrior  
I'll never back down When the bumper clean shake the earth right underneath  
Pick up the devil sides and let them call me thunder feet  
If you want a war I'm not the one to meet, I'm not sure I'm the sweet  
I'm like a tropic in the summer, come with heat  
Not to blow my old broads but I'm having a blast  
Spendin my paper fast  
Think I'm movin around, start havin a laugh

Competition's lookin over bars and I'm last nice  
Be fragile, reppin the underclass  
Miss me with your problems cuz I can't be yours  
Who Jeremy call, I look at the wall  
You star, we size em all  
You like to profile, you just a child that's in denial  
Now you're on trial  
You should bring the mind with me while we're flexin  
Good with nothing but a swagger and the crooked fall  
Hentai but never get rined out cuz I stay fresh out  
No doubt, don't say no  
I'm giving a proper, keep a pitch out  
I'm sittin here, I don't think about her  
I'm black tie, I'm tweeted up  
It's amazing what you can when you put your finger up I will fight til I take my last breath  
I got the heart of a warrior  
The heart of a warrior I've been down, I've been out and I bled  
I got the heart of a warrior  
The heart of a warrior  
I'll never back down Now now I was way through the fire  
Yea yea I got the eye of the tiger Don't tell me, what's 'cause something else  
God knows that I put in the hours  
I can't lose now, I got the power  
We at the top blowin smoke in the sky  
But I'mma take it just a little bit higher  
I will fight til I take my last breath  
I got the heart of a warrior  
The heart of a warrior  
I've been down, I've been out and I bled  
I got the heart of a warrior  
The heart of a warrior  
I'll never back down
