

Trail of Broken Hearts

[k.d. lang](#)

trail of broken hearts
looking back at you
now and from the start
these words will travel true
the godspeed of trust
will settle the dust we've been
passing through
broken trail
so longa long and tired past
in the emptiness has gone
i've found this place at last
and here will remain
with only the aim of staying
sure and fast
leaving just a part
down the trail of broken hearts
trail of broken hearts
looking back at you
now and from the start
these words will travel true
the godspeed of trust
will settle the dust
we've been passing through
leaving just a part
down the trail of broken hearts
