Snow Patrol

ou're angry but you don't know how to be that yet
It seems too much went wrong and all at once
Resistance seems impossible from down this low
And surely no one else can feel like thisBut on the streets
You can see them gathering
And in your heart
You know they feel like you doSound imposed and volume
Hands just reaching other hands
This is almost over
I said almost overFriends and foes and princes
Are all just human in the end
This is all damn simple, yeah
It's all damn simple
So standing in the steady throne of restless oath
You don't feel like an outcast anymore
And something deep inside of you has wakened up
And you know that nothing's gonna be the same againBut on the streets
You can see for what seems miles
Because in your heart
You know they feel like you doSound imposed and volume
Hands just reaching other hands
This is almost over
I said almost overFriends and foes and princes
Are all just human in the end
This is all damn simple, yeah
It's all damn simple
I won't be still
It may not again
You don't think it will
But it will, it willSound imposed and volume
Hand just reaching other hands
This is all damn simple, yeah
It's all damn simple
This is all damn simple, yeah
This is all damn simple
This is all damn simple, yeah
This is all damn simple
