

# Higher Than the Stars (Saint Etienne Remix)

## The Pains of Being Pure At Heart

Sh! t faced, fumbling in a dark place  
Drinking in the last days  
This street looks just like the next street  
bumble f@#k on repeat  
This time you should have stopped  
But where's the fun?  
The outcome the only friend you ever had  
is setting off with a rich son  
So sure she was like a brother  
Til you dropped another  
So sure you kept it under covers  
Until you knew you laughter (loved her?)  
Now you can't think straight  
Because you're not straight  
in the back of her mother's car  
in the back of her mother's car  
No secret's too safe and how you can't stay  
In the back of her mother's car  
In the back of her mother's car  
Lyrics Song Words  
Now you can't think straight  
Because you're not straight  
in the back of her mother's car  
in the back of her mother's car  
No secret's too safe  
And how you can't stay  
Higher than the stars
