

# Brightest Lights (feat. POLIÇA)

## Lane 8

I'd walk through fire  
To be closer to you  
I will never be whole  
Till I've carved it in stone  
Your heart I hold  
Away from trouble  
That old heartache brings  
Oh none of it matters  
It's all gonna scatter  
And you're all I need The feeling I'm feeling  
I know it's a reason  
I want it the rest of our lives  
The feeling I'm feeling  
I know it's a reason  
I want it the rest of our lives  
We're the brightest light  
Stars will gather round  
Just to be with you  
Love's the loudest sound All the world's just noise  
We will drown it out  
When you're holding me  
Love will scream out loud Don't hold to reason  
When the feeling's this strong  
Every piece of me shatters  
Searching for matter  
All the webs are gone The feeling I'm feeling  
I know it's a reason  
I want it the rest of our lives  
The feeling I'm feeling  
I know it's a reason  
I want it the rest of our lives  
We're the brightest light  
Stars will gather round  
Just to be with you  
Love's the loudest sound All the world's just noise  
We will drown it out  
When you're holding me  
Love will scream out loud
