

# On + Off

## Maggie Rogers

I'm coming up slowly  
I'm high on emotion  
With waves of this feeling  
As light as the ocean  
And then I see you  
When I feel like I'm drowning  
Then I see you  
It's okay, it's okay I'm alright again  
It's okay, I'm okay, it's okay Take me to that place where you always go  
All you think that all your day takes you oh so long  
On and off again, on and off again  
On and off again, on and off again  
On and off again, on and off again ohh  
Take me to the space where I need someone  
Where I'm shaking all my monsters coming undone  
When I'm  
On and off again, on and off again  
On and off again, on and off again  
On and off again, on and off again ohh You turn me on like  
Oh oh oh oh, oh oh oh oh, oh oh oh oh  
Take me through this wild time  
Stay with me through all of time  
Dangled, want you, on two Take me to that place where you always go  
All you think that all your day takes you oh so long  
On and off again, on and off again  
On and off again, on and off again  
On and off again, on and off again ohh oh  
Take me to the space where I need someone  
Where I'm shaking all my monsters coming undone  
When I'm  
On and off again, on and off again  
On and off again, on and off again You turn me on like  
Oh oh oh oh, oh oh oh oh, oh oh oh oh  
You turn me on like  
Oh oh oh oh, oh oh oh oh, oh oh oh oh  
You turn me on like  
Oh oh oh oh, oh oh oh oh, oh oh oh oh  
You turn me on like  
Oh oh oh oh, oh oh oh oh, oh oh oh oh  
Take me to that place, where you always  
Take me to that place  
Take me to that place

Take me to that, place  
Where you always go  
Won't you take me to that place  
Take me to that place  
Take me to that place  
Take me to that, place  
Where you always go  
Where you always go  
Where you always go (Take me take me )  
Where you always (take) me  
Where you always
