

Head On (Cuebrick Remix Extended)

Jochen Miller, JES & Cuebrick

Head on
Our gravity is too strong
To bring us back down
We're star bound
In the atmosphere We've waited long enough
And the writing's on the wall
And this got real so fast
But it started out so small
And honey the light's are gonna rise
When we float in weightless space
And the laws will be defied
Locked in the is embrace
Head On
Our Gravity is too strong
To Bring us back down
We're star bound
In the atmosphere
