

Younger Love

Panama Wedding

Well isn't it a small world?
Well isn't it a strange time?
How we're all forced to smile to each other
And I've been running all night long
running on my own (??)
looking for a place to hide, I'm looking for a cover
Go on, take me to the bottom, but I want you to
know that, know that I wait longer and longer for us
Slow down, give me time to investigate, but I want you to show me, show me your younger,
your younger love.
Your younger, your younger love
your younger, your younger love
I've been callin all night long, callin on a dead line to the satellites in the sky,
phone in to the ocean (?)
She said if you wanna go right now, if you wanna go drive, keep your hands inside
the ride when in motion.
Go on, take me to the bottom, but I want you to
know that, know that I wait longer and longer for us
Slow down, give me time to investigate, but I want you to show me, show me your younger,
your younger love.
Your younger, your younger love
your younger, your younger love
Show me what's goin' on, why are we slowin' down?
Don't tell me the truth.
Now that we're old enough to face what's been holdin' us from the time that we knew
I wanna be, wanna be new again, well you know that
Go on, take me to the bottom, but I want you to
know that, know that I wait longer and longer for us
Slow down, give me time to investigate, but I want you to show me, show me your younger,
your younger love.
Your younger, your younger love
