

Nvr 4Evr

Death from Above 1979

I wanted to leave, she said: I know what you mean, but it might be cool if you stick around
There's nothing to say
Just stop in and wait, you got a real cool way of pulling things down I know it's hard for you
To see, to see things through I might not like you so let's try to see where it goes
Don't go away too soon I'll follow
But never forever
Never forever
I wanted to preach, she said: Just wait up for me, I've got a lot more me to think about
I Said: Go ahead I'll think about you as well
You know I'm not that soul, I'm a settle down I know it's hard for you
To see, to see things through
I know it's hard for you
To see, to see straight through I might not like you, so let's try to see where it goes
Don't go away, too soon I'll follow
But never forever
Never forever Anyway
What things happen anyway? I know it's hard for you
To see, to see things through
I might not like you, so let's try to see where it goes
Don't go away, too soon I'll follow
But never forever
Never forever
Never forever
