

Come Lie Down With Me (And Sing My Song)

Elf Power

You will know me walking slowly
Through the spaces underneath
Pull me under, rolling thunder
Echoes all up and down the street Come lie down with me and sing my song
Close your eyes and soon we will be gone Midnight water, lovely daughter
This was just where I wanted to be
Windows open, nothing spoken
Just the sound of the rain on the sea Come lie down with me and sing my song
Close your eyes and soon we will be gone In the dream I was older
And I sat on the bench in the park
You came up from the ground
And you followed me into the dark
Come lie down with me and sing my song
Close your eyes and soon we will be gone
