

I Belong Here (feat. Woodes)

Set Mo

Got me in a daze
But I'm afraid for when the haze disappears
Will I be here?
But I'm not thinking straight
Won't hesitate when the haze disappears
Will I be here?
Do I stand alone or do I go?
Is it wrong the future's still unknown?
Conversations with myself, you'll never know
I'm not running in circles, oh Don't think about it
Don't mess it up
I don't wanna erase it
They're still hiding
Won't come undone
I just keep believing
I belong here
I belong here
I belong here
I belong here I see through the dust
My eyes adjust as the haze disappears
I'm still here
You're in focus now
There is no doubt if the haze reappears
We'll be here
I won't stand alone, no you won't go
It's okay the future is unknown
Destination is a place that we both know
No more running in circles, no
Don't think about it
Don't mess it up
I don't wanna erase] it
They're still hiding
Won't come undone
I just keep believing I belong here
I belong here
I belong here
I belong here Don't think about it
Don't mess it up
I don't wanna erase it
They're still hiding
Won't come undone
I just keep believing That I, I belong here

I belong here
I belong here
I belong here
I belong here
I belong here
I belong here
I belong here
(end)
