

I Can't Outrun You

Home Free

Ninety-five down the interstate
Mile high in a jet plane
A desert road or a downtown train
It's all the same
I can't outrun you Now I could move to another town
But nobody'd ask where you are now
LA to Mexico
No matter where I go
I can't outrun you
You're in my heart, you're in my mind
Everywhere ahead, everywhere behind
Every turn I take, you're right around the bend
It's like your ghost is chasing me
When I'm awake, when I'm asleep
There's a part of you in every part of me
I can't outrun you
I can't outrun you I've had a chance with a girl or two
But all I ever saw was you
Holding my hand, kissing my face
I guess our memories never fade
You're in my heart, you're in my mind
Everywhere ahead, everywhere behind
Every turn I take, you're right around the bend
It's like your ghost is chasing me
When I'm awake, when I'm asleep
There's a part of you in every part of me
I can't outrun you
I can't outrun you I thought there might just come a time
I wouldn't regret telling you goodbye
Looking back I should've realised
I can't outrun you
I can't outrun you
I can't outrun you
