

# Giving You Up (Riton Re-Dub Dub Mix)

Kylie Minogue

Last night I lost my head  
And fell right back into your love  
I lay intoxicated while angels circled high above  
Deep in a perfect moment  
All at once it feels so right  
But when I wake I see reality turn back and bite  
Ah, hah-ah hah-ah  
Ah, hah-ah hah-ah  
Ah, hah-ah hah-ah  
Your heartbeats ticking  
And your cool starts dripping  
And your tongue tied up on the phone  
Your backbones breaking  
And your smooth starts shaking  
Like you can't stand being alone  
Your calm starts rocking  
Little doubts are knocking  
And the whole world slipping away  
The tension's killing  
But the ride is thrilling  
And you can't help going again  
What you want is what you don't know  
Turn me on and watch your ego  
What you want is what you don't need  
Stand up when your talking to me  
Chorus:  
I can't start giving you up  
I'm lost without you  
Can't stop tickin the tock  
I can't start giving you up  
I'm mad about you  
Can't stop slipping it off  
I can't start giving you up  
I'm lost without you  
Can't stop tickin the tock  
I can't start giving you up  
I'm mad about you  
Can't stop slipping it off  
A girls got to suffer for fashion  
She knows what her body can do-oo-hoo  
She finds a man and she makes it her passion  
I'm happy trying all the time with a boy like you  
A girls got to suffer for fashion  
She knows what her body can do, oo-hoo  
She finds a man and she makes it her passion  
I'm happy trying all the time with a boy like you  
I can't start giving you up  
I'm lost without you  
I can't start giving you up  
I'm mad about you  
Chorus:  
I can't start giving you up

I'm lost without you  
Can't stop tickin the tock  
I can't start giving you up  
I'm mad about you  
Can't stop slipping it offI can't start giving you up  
I'm lost without you  
Can't stop tickin the tock  
I can't start giving you up  
I'm mad about you  
Can't stop slipping it offAh, hah-ah hah-ah (to fade)
