

# Ricochet!

## Shiny Toy Guns

Welcome back to  
Where I'm gonna have you  
Shell shock, fall back  
Anyone I see through Watch your head spin  
Like a mesocyclone  
Bouncing off the walls  
Now there's nowhere to run Like a bullet, meant to be shot  
You're the target, dead on the spot  
When I focus, I never miss  
It starts with a kiss She ricochets  
And you don't notice  
She's in your head  
And you just don't notice  
She ricochets  
And you don't notice  
She's in your head  
And you just don't notice Let the sweat fall  
Find me in the back stall  
Let it snow down  
Now we're gonna deck halls I hit the bullseye  
Making all the boys cry  
I hit the main line  
Breaking through the night sky Like a bullet, meant to be shot  
You're the target, dead on the spot  
When I focus, I never miss  
It starts with a kiss  
She ricochets  
And you don't notice  
She's in your head  
And you just don't notice She ricochets  
And you don't notice  
She's in your head  
And you just don't notice
