

# The Morning Sad

Veruca Salt

wake up and talk to me  
it's a long time since last night  
i know we said things  
the saddest things  
and i'm not sure it was wise when the morning sad  
you don't look back  
and you sure don't look ahead  
the morning sad  
you know the morning sad  
the morning sad, never had it so bad  
never had it so bad.  
i'm writing desperate songs  
while you're fast asleep inside  
i could try to sing  
until it rings  
but my voice comes out uptight. when the morning sad  
you don't relax  
and you cannot clear your mind  
the morning sad  
you know the morning sad  
the morning sad, never had it so bad  
never had it so bad. i tried a little, i tried a lot  
i'm not a window  
and you've seen through everything i've got  
oh, i don't think that i'll be safe  
until everyone's awake  
everybody, everybody, everybody, yeah...  
so wake up and talk to me  
such a long time since last night  
i know we said things  
the maddest things  
and i'm not sure who was right. when the morning's sad  
you don't attack  
cause you're much too weak to bite  
the morning sad  
you know the morning sad  
the morning sad. never had it so bad  
never had it so bad  
never had it so bad  
never had it so bad  
never had it so bad

never had it so bad  
never had it so bad  
never had it so badno...  
never had it so bad  
yeah, yeah, yeah...  
never had it so bad
