

# Fall in the Fall

## Jelly Roll & Struggle Jennings

Baby if you love me  
Well please love me now  
'Cause baby if you love me  
It's my darkest hour  
It's my darkest hour If I did you wrong before  
I won't do you wrong no more  
It's all I've ever known  
It's all I know, it's all I know Baby who's gone catch you when you fall?  
When you really need one who's the one that you can call?  
I don't give a fuck about it, you can have it all  
'Cause the leaves only fall in the fall, yeah they fall in the fall  
Smoking weed, drinking liquor  
Some of my sins can't be forgiven  
House on fire, can't leave the kitchen  
I'm committed, motherfuckers can't see the vision  
Meanwhile I'm soaked in gasoline  
The game's up and down like a trampoline  
Please understand if you shake the tree  
You gotta deal with the wasps and rake the leaves  
Me and my life had tragedy  
So they taught me something bout agony  
Having seen a lot of shit go up and down  
And that taught me something about gravity I feel the good times over the horizon  
I can feel em coming with the sun shining  
But forgive for the times I was blinded  
From the nights that I thought I was flying  
Till you find out that you've fallen  
And nobody seems to care  
Say, Father, God, I'll forgive em now  
'Cause even demons need a prayer  
And I changed my life I swear  
Through the hard times stood right there  
Fuck shit, I did my share but the darkness [?] prepare Baby if you love me  
Well please love me now  
'Cause baby if you love me  
It's my darkest hour  
It's my darkest hour If I did you wrong before  
I won't do you wrong no more  
It's all I've ever known  
It's all I know, it's all I know Baby who's gone catch you when you fall?  
When you really need one who's the one that you can call?  
I don't give a fuck about it, you can have it all

'Cause the leaves only fall in the fall, yeah they fall in the fall  
We fell in love under a full moon  
To the sound of howling big dogs  
Early morning gun fire  
Blinded by the thick fog  
No way out I only see a way in  
I'm looking for the win  
Follow my heart, never a trend  
No fear where I been  
'Cause I'm still good at my worst  
Surviving off the lessons  
Never asked to shoot first  
Though money never was the fantasy  
I fantasized about my family  
Getting out of tragedy, no casualties  
[?] tell me strategy  
Bastard born to anarchy  
Son of the widow  
I sleep pistols under pillow  
Since it's eat what you kill  
I bite a hard hungry hippo  
While my baby weeps underneath  
The branches of my window  
Baby if you love me  
Well please love me now  
'Cause baby if you love me  
It's my darkest hour  
It's my darkest hour  
If I did you wrong before  
I won't do you wrong no more  
It's all I've ever known  
It's all I know, it's all I know  
It's all I know  
Baby who's gone catch you when you fall?  
When you really need one who's the one that you can call?  
I don't give a fuck about it, you can have it all  
'Cause the leaves only fall in the fall, yeah they fall in the fall
