

Spotlight

Lyfe Jennings

She's on the dance floor grindin', poppin' and unwindin'
Her body got a mind of its own
She bendin' over like shotgun, bullet in the chamber
Baby-girl is out of control She goin' in like a scuba diver, hot like a forest fire
Sexy like you wouldn't believe
She say she want it, want it bad, I'm glad, I'm glad, I'm glad
It'll be my pleasure, girl, to spread out your weave La, la, la, la, la, okay
This is what it feels like in the spotlight
La, la, baby
Bumpin' bodies all night in the spotlight She's like a spaceship walkin', fellas stop talkin'
When my baby enters the room
It's like somebody set a bomb off, everybody's pointin'
The lightin' ain't got nothin' on you
She move her body like a stripper, make me wanna tip her
Shorty-girl so damn hot
She a little, little tipsy, one more shot of Henny
And I'ma tear that booty apart La, la, la, la, la, la, okay
This is what it feels like in the spotlight
La, la, baby
Bumpin' bodies all night in the spotlight La, la, la, la, la, la, okay
This is what it feels like in the spotlight
La, la, baby
Bumpin' bodies all night in the spotlight Yeah, she say she into spoonin', I said I'm into forkin'
I want to kill that ass, call me Lyfe Kevorkian
Her body's actin' up, I wanna make a movie
Straight to DVD, too nasty for TV
She said buy me to drink, I bought the whole club
Then fired everybody and now she fired up
She say she wanna do it underneath the spotlight
I said, "Is that right?"
(Right?) La, la, la, la, la, la, okay
This is what it feels like in the spotlight
La, la, baby
Bumpin' bodies all night in the spotlight La, la, la, la, la, la, okay
This is what it feels like in the spotlight
La, la, baby
Bumpin' bodies all night in the spotlight
