

# Misused Adrenaline

## Dryjacket

Our primal instincts getting wasted on impulses we've created and now our welcomes  
overstayed  
Misused adrenaline sets in Everyone's wrong and now look the sun is dimming  
Kill us all off and then start a new beginning  
Understand that my last steps are gonna follow you  
Misused adrenaline won't win I was made aware of the fact that there's no turning back  
Strengthen cognitive infections  
Start a brand new plague  
Everyone questions everything you stand for  
Fight then flight  
Left right  
And uppercut their mouth shut Our central purpose seems to be buried by currency as needs  
Good grief my outlook has checked out  
Misused adrenaline kicks in Maybe I'm wrong but now look the sun is falling  
Most of our day to day choices are appalling  
Understand that my last words are gonna mention you  
Misused adrenaline you win There's no turning back  
Strengthen cognitive infections  
Start a brand new plague  
Everyone questions everything you stand for  
Fight then flight  
Left right  
And uppercut their mouth closed shut
