

# **Yeah Yeah (feat. Travie McCoy)**

## **Cheryl & Travie McCoy**

If you love me like that,  
Boy, I love you right back  
We ain't similar  
They say opposites attract  
Everytime I hold you,  
Can't be any closer,  
Told my ex on to the next  
It's official, we're over'Cause every night  
I dream of you being by my side,  
And I can take a lifetime of loving you,  
Right now that's what I've been meaning to,  
So let's no complicate it, just say yeah  
Yeah yeah yeah,  
We could do this forever,  
That's if you wanted to? Could you?  
Yeah yeah yeah,  
We should do this forever,  
So it's just me and you, and you,  
Waiting all this time,  
And I'm not letting you pass me by,  
'Cause you're the miracle in my life  
The sun that shines on a cloudy night,  
So if you want it, you want it say.It's Travie,  
I don't wanna make no promises,  
I just wanna show what it is,  
Take advantage when somebody's down for you like this  
And if you don't understand,  
Come on and take me by the hand,  
If you can't forget the past,  
just remember what we had.  
'Cause every night  
I dream of you being by my side,  
And I can take a lifetime of loving you,  
Right now that's what I've been meaning to,  
So let's no complicate it, just say yeahYeah yeah yeah,  
We could do this forever,  
That's if you wanted to? Could you?  
Yeah yeah yeah,  
We should do this forever,  
So it's just me and you, and you,  
Waiting all this time,  
And I'm not letting you pass me by,

'Cause you're the miracle in my life  
The sun that shines on a cloudy night,  
So if you want it, you want it say. You're forever mine,  
    My light in the dark,  
    You're my calling card,  
My name's on your heart (your heart, your heart, your heart, your heart) Yeah yeah yeah,  
    We could do this forever,  
    That's if you wanted to? Could you?  
        Yeah yeah yeah,  
        We should do this forever,  
        So it's just me and you, and you,  
        Waiting all this time,  
And I'm not letting you pass me by,  
'Cause you're the miracle in my life  
The sun that shines on a cloudy night,  
So if you want it, you want it say.
