

Something New (feat. Etta Bond)

SiR

[Verse 1: SiR]

I found another life in London, it's true

I fell in love with the summer

Fell in love with you

You shine your light in the winter

I'll miss the darkest view

Now it's the perfect season

To swim the deepest blue[Hook: SiR]

And if everything else falls apart

I still have you

If I can't find my way back home

We'll make something new

Something new

[Verse 2: Etta Bond]

Now we off, one another

It's true

Something like no other

Tell me what would you do if she was me

Tell me how would you move if we're afraid[Hook: SiR & Etta Bond]

And if everything else falls apart

I still have you

If I can't find my way back home

We'll make something new

Something new

[Outro]

Welcome back...
