

In My Blood

Leo Stannard

In my blood It's all I see, It's all I need
Don't make a sound
I've been looking for something everyone knows
And you to me are family so clearer now, we've been going to places nobody goes
Was it real or did I just make it up
And I don't know how it happened but you got in to my blood
And I feel like you're lifting me up Now every time I close my eyes I know that i'll wake up
With you in my blood
With you in my blood
Honestly I can't believe where we are now
We've been going together out of this town
And you to me are family, I love what I found
I could never lose you even if I tired
Was it real or did i just make it up
And I don't know how it happened but you got into my blood
And I feel like you're lifting me up Now every time I close my eyes I know that i'll wake up
with you in my blood
In my blood
was it real or did I just make it up
And I don't know how it happened but you got into my blood
And I feel like you're lifting me up
Now every time I close my eyes I know that i'll wake up
Was it real or did I just make it up
And I don't know how it happened but you got into my blood
And I feel like you're lifting me up
Now every time I close my eyes I know that i'll wake up
Now every time I close my eyes I know that i'll wake up
With you in my blood
With you in my blood
