

Recover

Ruelle

Can you see me?
I can barely see myself
Are we only empty frames up on the shelf
It's like we're dreaming wide awake
Everything bends until it breaks
Can we recover?
Can we get over this?
Are we too deep in the night to see the day?
Can we recover?
Can we get over this?
Are we too frozen inside to feel the flame?
Empty vapour
Where there used to be our view
Cloudy layers
When the sky was crystal blue
It's like we're dreaming wide awake
Everything bends until it breaks
Can we recover?
Can we get over this?
Are we too deep in the night to see the day?
Can we recover?
Can we get over this?
Are we too frozen inside to feel the flame?
Can we start over?
Say it's not over
Is there a remedy at the place where we started then?
Where there's a hunger if there is room in hearts spinning
Can we recover?
Can we get over this?
Are we too deep in the night to see the day?
