

Surround Sound

Empire of the Sun

Lets flow together like water
Til I can tell you probably
Our great king wave is rolling
Oh, I see Lets flow much harder than the sun
Til all flames incendiary
Like saving rays Im sleeping The light skips the sun now
I only sound surround
The light skips the sun now
I only sound surround
Lets push through four dimensions
Til Ill resign to change
My duty with no thinking
Its not a way Lets seek and reach for greatness
Here come all true and journey
Lets resonate together The light skips the sun now
I only sound surround
The light skips the sun now
I only sound surround The light skips the sun now
I only sound surround
The light skips the sun now
I only sound surround
The light skips the sun now
I only sound surround
The light skips the sun now
I only sound surround
The light skips the sun now
I only sound surround
