Dangerous (Oliver Remix)

Big Data

How could you know, how could you know?

That those were my eyes

Peepin through the floor, it's like they know

It's like they know I'm looking from the outside
and creeping to the door, it's like they know

And now they coming, yeah, now they coming

Out from the shadowsTo take me to the club because they know That I shut this down, cause they been watching all my windows

They gathered up the wall and listening
You understand, they got a plan for us
I bet you didn't know that I was dangerous
It must be fate, I found a place for us

I bet you didn't know someone could love you this much How could they know, how could they know

What I been thinking?

But they're right inside my head because they know Because they know, what I been hidin'

They're right under my bed, they're in controlHere they come, yeah here they come Out of the shadows

> To take me to the club because they know That I shut this down, cause they been watching all my windows

> > They gathered up the wall and listening And I've gotta get out of here

Sink down, into the darkKeep on runningAnd I've gotta get out of here, (keep on running)

Sink down, into the dark

You understand, they got a plan for us I bet you didn't know that I was dangerous

It must be fate, I found a place for us

I bet you didn't know someone could love you this muchNobody's listening when we're alone Nobody's listening, there's nobody listening,

No one can hear us when we're alone,

No one can hear us, no, no one can hear usAnd I've gotta get out of here

Sink down, into the dark

Keep on running

And I've gotta get out of here

Keep on running

Sink down, into the darkYou understand, they got a plan for us

I bet you didn't know that I was dangerous

It must be fate, I found a place for us

I bet you didn't know someone could love you this much
