

# Levitation

## Hawkwind

In the darkness I will shine  
Cast no shadows nor define  
I walk on water float on air  
There's no other to compare I have this fascination  
No cause for deviation  
It's called levitation  
Levitation  
Levitation! There's no cause to start and scream  
Nor rub your eyes - this is no dream  
Although I sit upon this chair  
I rise and float up in the air  
I have this fascination  
No cause for deviation  
It's called levitation  
Levitation  
Levitation! Magnetic force, repel - attract  
Once it starts there's no turning back  
I offer you this chance to learn  
Take it now there's no return I have this fascination  
No cause for deviation  
It's called levitation  
Levitation  
Levitation! Magnetic force, repel - attract  
Once it starts there's no turning back  
I offer you this chance to learn  
Take it now there's no return  
I have this fascination  
No cause for deviation  
It's called levitation  
Levitation  
Levitation!
