

The Other Side (feat. Wayne Jackson)

Paul van Dyk

Wind has broken through
I will comfort you
When I wake, my tongue is tied
Daylight brings the great divide Weeping like the rain
Whispering your name
Long to be reunified
Believe the sun will rise
When I reach the light
I will see you on the other side I'm sure the sun will shine
When I reach the light
I will see you on the other side
See you on the other side
When I close my eyes
See you on the other side
When I close my eyes See you on the other side
When I close my eyes
See you on the other side
When I close my eyes Speeding city lights
Leave me weak tonight
Oh I miss your warmth inside
The stars came out to shine
Across the waterline
I can feel you on the other side See you on the other side
When I close my eyes
And I reach the light
See you on the other side
When I close my eyes See you on the other side
When I close my eyes
And I reach the light See you on the other side
When I close my eyes
