Can't hide it
Can't just stand there
Can't hide it
Come get high Baby girl, just be patient
I can make you believe
Keep the miles in rotation
Smoke it 'til you feel free Your body feels a sensation
Keep your eyes on me
Do you need simulation?
I can help you achieve
Can't hide it
Can't just stand there
Can't hide it
Come get high Can't hide it
Can't just stand there
Can't hide it
Come get high Can't hide it
Can't just stand there
Can't hide it
Come get high
Can't hide it
Can't just stand there
Can't hide it
Come get high
