

Running Out (Alexander Lewis Remix)

Matoma & Astrid S

I was thinking about the day we met
When the love came rushing out and you were Empty handed filled with regret
I was thinking about the day we met When the love came rushing out and you were
Empty handed filled with regret
Our love is running out Our love is running
Our love is running Our love is running out
Our love is running, running, running out
Our love is running out Our love is running
Our love is running Our love is running out
Our love is running, running, running out I remember when I saw you cry
Like a waterfall you carry me away
With just a look into your eyes
I remember when I saw you cry
Like a waterfall you carry me away
With just a look into your eyes
Our love is running out
Our love is running
Our love is running
Our love is running out
Our love is running, running, running out
Our love is running out
Our love is running
Our love is running
Our love is running out
Our love is running, running, running out
