

The Wall Will Fall

[Rick Springfield](#)

The sun may not be shining
But I pray for a silver lining
Up ahead
You're still in bed Why do you keep your distance
There's no point in your great resistance
How can it be
So hard to be free I'm gonna keep on breaking into your heart
Til you finally give the key to me As the stars all burn they light the sky
As the rivers run to reach the sea
We can no longer turn a blinded eye
To a heart that's cryin' to be free
The soul that dreams of peace
The beautiful release
You'll paint your masterpiece
And the wall will fall You think you're all alone
Sitting in some twilight zone
But I'm right here
There's nothing to fear This thing won't last forever
Not if we stand together
We'll get through
I promise you I know inside you feel the heat of the flame
As I pull you closer and I say your name As the stars all burn they light the sky
As the rivers run to reach the sea
We can no longer turn a blinded eye
To a heart that's crying to be free
The soul that dreams of peace
The beautiful release
You'll paint your masterpiece
And the wall will fall Can you hear my voice
In all the silent noise
Am I getting through
I'm just a shout away Na na na na na, na na na
Take care of each other
Na na na na na, na na na
My sister, my brother Na na na na na, na na na
Take care of each other
Na na na na na, na na na
My sister, my brother Na na na na na, na na na
Take care of each other
Na na na na na, na na na
My sister, my brother Na na na na na, na na na
Take care of each other
