

# Crash This Party (feat. Tabitha Nauser)

## Yellow Claw

[Verse 1]

Never leave, never leave me alone  
What you promised in me?  
Soon as we, soon as we get home  
Introduce me to the sheets again[Pre-Chorus]  
Take your hands, put 'em on me  
Generate the motions alone  
Well, you better lead below me  
We move like an ocean, oh

[Chorus]

Falling down but it feels like flying  
What you doin' to me?  
And I don't care if we crash this party  
As long as you are with me  
I know I'm falling but it feels like flying  
What you doin' to me?  
And I don't care if we crash this party  
As long as you are with me[Verse 2]

Like a fever burning on  
Hope it never turns cold, yeah  
Got me vibing like a telephone  
And you're answering that call again

[Pre-Chorus]

Take your hands, put 'em on me  
Generate the motions, love  
Well, you better lead below me  
We move like an ocean, ooh[Chorus]  
Falling down but it feels like flying  
What you doin' to me?  
And I don't care if we crash this party  
As long as you are with me  
I know I'm falling but it feels like flying  
What you doin' to me?  
And I don't care if we crash this party  
As long as you are with me[Bridge]
