

Sleep Baby Sleep

Broods

Sleep baby sleep
What are you waiting for?
The morning's on its way
You know it's only just a dream
Oh sleep baby sleep
I'll lie next to you
The beauty of this mess is that it brings me close to you I could be the one to give you all that I
have

With a gentle touch and a foolish love
You could be the one to carry all my troubles away
With the words you say, all I need to hear, so
Sleep baby sleep
What are you waiting for?
The morning's on its way
You know it's only just a dream
Oh sleep baby sleep
I'll lie next to you
The beauty of this mess is that it brings me close to you Ignorance is torture but your love is
right

Tip to tip a gentleman of the night
You feed my fascination the way our skin likes silk
And I'm so filled with wonder you could fool me easily, so Sleep baby sleep
What are you waiting for?
The morning's on its way
You know it's only just a dream
Oh sleep baby sleep
I'll lie next to you
The beauty of this mess is that it brings me close to you
So lay here and rest up next to me
'Cause we'll be alright, we'll be alright
But when we leave I know it's hard
'Cause it's all we know, but we'll be alright, we'll be alright, right Sleep baby sleep
What are you waiting for?
The morning's on its way
You know it's only just a dream
Oh sleep baby sleep
I'll lie next to you
The beauty of this mess is that it brings me close to you
