

City of Dreams (feat. Clipse, Kobe & Kobe)

Travis Barker

the call . the way to view my life
20 cylinders is more for any . pipe
fuck every bitch worthy in the east coast twice
call the badders a whore and one to turn?
triple beans in nipple rings
this thins is fantasy when you're a king
eat life from the palm of my hands
we came out winners from the villagers dancewelcome to the city where anything is possible
american dream overcome many obstacles
rainbow . just may lead you to a protocol
chain so chilly i believe that i'm gonna caught a cold
but the flow nothing to sneeze at
de colors all up in my ear like is?
know . through with the .
never mind the price in the change .
chorus
welcome to the city of dreams
when you never have to wake up from a nightmare
so you better pack heavy
welcome to the city of dreams
when you never have to wake up from a nightmare
so you better be readyi am living life at a fast pace
who said both running in a faster race
break a deal? the master?
we order sushi sucking on Edamame
dance with an girlfriend i am in heaven mammy
she is fairytale i sell fairy dust
let the bitch dream i've been fair enough
i am drop dead in a drop head
we can . in the trunk that's what i said
gotta . for my soul that's what bob said
i think? for somebody . with every fact noted in the . city?
chorustime is running out on you niggers
the clock is ticking
. the plot thickens
you all heard we fly with the bird
we caught chickens. the top is missing
. to the window i throw it out . like the lakers
haters you all want . beef i serve the odb
and i can't be touched by none of you
i got ocd and i am nice with the kids too
see we play the scale get the grips of?

i got the . something don't seat well
. i fuck bad bitches like .
but i? you niggers best believe?chorus
