

Bad Habits

Daughtry

[Verse 1]

Let's smoke

Smoke a cigarette in bed together, in bed together

Just a metaphor

For all the ways that we see each other, we see each other

I keep on pulling you in, holding my breath

Long as I can, 'til I need to exhale

And it can't be good for you

No, it can't be good[Chorus]

We ain't gotta go home, we could just stay here and kick it

Got a lot to learn, but I don't want to admit it

Sorry to put you down, I'm up on us right now, let's hit it

Just trying to kick it like, let's kick it like

My bad, my bad, bad habits, yeah

My bad, my bad, bad habits

[Verse 2]

Let's call

So let's call it what it is and have another, have another

Against the wall

And now you got my mind in the gutter, in the gutter

I keep on drinking you down, cooling my thirst

Causing a scene and I'm slurring my words

And it can't be good for you

No, it can't be good[Chorus]

We ain't gotta go home, we could just stay here and kick it

Got a lot to learn, but I don't want to admit it

Sorry to put you down, I'm up on us right now, let's hit it

Just trying to kick it like, let's kick it like

My bad, my bad, bad habits, yeah

My bad, my bad, bad habits

My bad, bad habits, yeah

[Bridge]

I don't wanna go home, no

I just wanna stay here

I just wanna stay here and kick it[Chorus]

We ain't gotta go home, we could just stay here and kick it

Got a lot to learn, but I don't want to admit it

Sorry to put you down, I'm up on us right now, let's hit it

Just trying to kick it like, let's kick it like

My bad, my bad, bad habits, yeah

My bad, my bad, bad habits[Outro]

Let's smoke

Let's call it what it is and have another
(My bad, my bad, bad habits, yeah)
And have another
(my bad, my bad, bad habits)
