

Generation Lost

Motionless In White

Throw your hands in the air and start this shit! We are the name of the game, putting "filth" on
the map

The right side of the reason, the wrong side of the tracks

It's not for fame, or for gain (that) we've crawled out from the dirt

'Cause I still can't fill my pockets with my name on your shirt Yeah we bleed, scream, and get
up off our knees

We ignite to excite. We're taking back the night Generation lost, we don't sleep at night, we
don't give up

Generation lost, make a fist and close your eyes, yeah

Generation lost, we're here to stay cause we've had enough

Generation lost, middle fingers in the sky

We are a beacon of hope, the dark side of the light

We always aim for the throat, we only come out at night

If you need bodies you should see my collection

You're sharing copies but you're lacking impression Now we bleed the dream, so get up off your
feet

We ignite to excite, throw your hands in the air and scream Generation lost, we don't sleep at
night, we don't give up

Generation lost, make a fist and close your eyes, yeah

Generation lost, we're here to stay cause we've had enough

Generation lost, middle fingers in the sky Holding up to save yourself

And terrorize like no one else will

And screaming out some way out done

We'll live forever in the emptiness Coast to coast I hear the masses calling

Turn up now this is the final warning Throw your hands in the air, and start this shit!

Generation lost, we don't sleep at night, we don't give up

Generation lost, make a fist and close your eyes, yeah

Generation lost, we're here to stay cause we've had enough

Generation lost, middle fingers in the sky
