

Out of Hell

Skillet

I've been down in the dirt, lost for so long
And pushed around beaten down
Got nothing left to lose, all hope is gone
Got buried deep underground
Oh, can you see me?
Oh, can you hear me?
Can you hear me screaming for you?
I'm afraid I'm gonna die out here
I can't save, I can't save myself
Get me out, get me out of Hell
I'm suffocating waiting for you
Cause the angels don't fly down here
I need you because no one else
Can get me out, get me out of hell
I can't trust anyone, all that I got
Is another scarred, broken heart
I've been stabbed in the back, the bleeding won't stop
Just another cut in the dark
Oh, can you see me?
Oh, can you hear me?
Can you hear me screaming for you?
I'm afraid I'm gonna die out here
I can't save, I can't save myself
Get me out, get me out of Hell
I'm suffocating waiting for you
Cause the angels don't fly down here
I need you because no one else
Can get me out, get me out of Hell
Can you hear me screaming for you?
I'm afraid I'm gonna die out here
I can't save, I can't save myself
Get me out, get me out of Hell
I'm suffocating waiting for you
Cause the angels don't fly down here
I need you because no one else
Can get me out, get me out of hell
