

# Embedded

## Job for a Cowboy

An incision leads to the future of the new world  
A mark buried deep under the skin and flesh  
will divide and distinguish man  
Signatures implanted on the hands and forehead  
Re-occurrence of modern times and scriptures Testament to holy doctrines written in vital blood  
In the extent all will hold something very similarly  
and accordingly  
All will bear his name with the distinct and  
original number of his signature In a new world with suppressing technology  
Lacerations lead to codes embedded in blood streams beneath the flesh  
Currencies fuse together to  
Form a solitary and overruling capital  
Money evolves into cryptic letters and numbers  
that flow through the net  
A conflagration set to diminish papered riches  
depleting its masterdom  
No longer capable of enslaving the likes of human kind  
from only presenting itself as a form of an object Re-occurrence of modern times and scriptures  
Testament to holy doctrines written in vital blood  
In the extent all will hold something  
very similarly and accordingly  
All will bear his name with the distinct and original number of his signature  
In a new world with suppressing technology Lacerations lead to codes embedded in blood  
streams beneath the flesh  
Currencies fuse together to form a solitary  
and overruling capital  
Money evolves into cryptic letters and numbers  
that flow through the net  
A conflagration set to diminish  
papered riches depleting its masterdom No longer capable of enslaving the likes of human kind  
from only presenting itself as a form of an object  
Fragments of ash flow through the atmospheres currents  
Onlookers breathe and inhale what they once worshiped.  
The demons solution, a new world order.
