

100 Degrees (feat. Dannii Minogue)

Kylie Minogue

All around the world
Anticipation
Cause here it comes again
(You see)
No matter where you are
It could be near or far
But it still feels like
Christmas time
To me I tell you what you already know
Forget and ready to let it go
The countdown has began
(Whether you're in the mmh)
Thoughts up it's all the same
Let your troubles fade away
Get ready to love anyone
Whether the sun beats down
Or there's a storm around
Whether the snow falls or
It's 100 degrees
It's still Christmas to me Oh, we gonna dance tonight
Oh, let the temperature rise
To 100 degrees
To a hundred, hundred, hundred degrees
You know you just can't get enough
Gonna keep beating it up
To 100 degrees
To a hundred, hundred, hundred degrees Can you feel the heat on the floor?
(Really gets you wanting some more)
That's making every ending tonight
Oh, we're loading now to fairy lights
(Everyone's got a different way
But we all want the same
We want disco night)
Hundred, hundred, hundred
Hundred, hundred, hundred
Hundred, hundred, hundred degrees
It's still Christmas to me
