

Feel Alive (feat. Pitbull & DJ Poet)

Fergie

I tell truth even when I lie (yeah)
Take a deep look in my eyes (Mr. Worldwide) Lets wake up the world, lets ride, dale
Wake me up in the morning
Slow me down in the evening
Get me whatever you want to make me feel alive Wake me up in the morning
Slow me down in the evening
Get me whatever you want to make me feel alive
Im so 3000 and great, theyre so 2000 and hate
They want me to fall and fail
Hurry up and wait, Im a pyscho on a beat
Norman bates, Im on that bally, as well, as the fire great legs, break
Five, six, seven, eight, Im some like a pimp, when I put my words on a track, slap
Hussle, hussle, hard, grind, Im known for that, slap
Hussle, business, manager, and now hes a business man
That chico got more flips than gymnist man
Who is the man? chip chip bang
Wake me up in the morning
Slow me down in the evening
Get me whatever you want to make me feel alive
Wake me up in the morning
Slow me down in the evening
Get me whatever you want to make me feel alive
Lets get it like it, automatic
Space invader, dancefloor operator
Supersonic, elevator, next level, upgrader
Take you higher, margin later, right now not later
I feel alive baby, I feel alive in this club
I feel alive baby, I feel alive in this club
I feel alive baby, I feel alive in this club
I feel alive, feel alive
Wake me up in the morning
Slow me down in the evening
Get me whatever you want to make me feel alive I be going faster, and faster
Better make it last, make it last yeah
I be going faster, and faster
Better make it last, make it last now baby
Wake me up in the morning
Slow me down in the evening
Get me whatever you want to make me feel alive Wake me up in the morning
Slow me down in the evening
Get me whatever you want to make me feel alive I feel alive
I feel alive

I feel alive now I feel great
