

Lovit

Marian Hill

Suit black as ink
I bet I know your drink
Everything you pray for, everything you play for Baby turn around
Mind if I sit down
Everything you pray for,
Everything you play for me I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love
You got a sexy sound
you want another round
I like the way you play boy
Tell me why you play boy Does it make you feel
Like nothing else is real
I like the way you play boy
Show me why you play boy I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love
I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love I la la la la love it
I la la la la love it
I la la la la love it, love it, love it love
